Evaluation of the performance of laying hens placed on drinking water fortified with waterleaf (*Talinum triangulare* (Jacq.) Willd) aqueous extract

This study was carried out to evaluate the effect of waterleaf (*Talinum triangulare* (Jacq.) Willd) aqueous extract on the performance of laying hens. This study was arranged in a completely randomized design with five treatments (T1, T2, T3, T4 and T5) with 0, 50, 100, 150 and 200 ml of waterleaf aqueous extract (WAE), respectively in their drinking water. Forty (40) Nera black hens at 24 weeks of age were randomly...
